Who Has The Energy?

I read a book about how to save the earth on my iPad
It was illuminating, encouraging, but mainly sad

Who has the energy for energy these days?

Solar panels on taxis and horses and pipelines
We need more Starbucks and less of these coal mines

Who has the energy for energy these days?

We need to pour all of our chlorine into the sea
It's been dirty for too long and undrinkable since 1903

Who has the energy for energy these days?

The radioactive power behind the atom split
It was dangerous but oh boy, its lit

Who has the energy for energy these days?

Who has the energy for energy these days?
